## DEDICATION

We dedicate this yearbook to the wonderful school nurses here at RHS. Within the past two years, our nurses have been the glue holding our school community together. They have not only done their regular responsibilities like giving medication, ice, support, eye and ear exams, but have also taken on the added workload to keep the school safe during this pandemic. They have been doing everything they can to keep our community safe whether it be helping administration with scheduling, keeping track of exposure, sending home students who are sick, or just the day-to-day injuries students face. They continue to provide food, medication, and help, even if there is a line going out of the door. Although their job is extremely difficult, they have always done it with positivity and showing empathy to the students who go to them. Their continued dedication and hard work have been a crucial part of keeping the school running safely and we would be nowhere without them. We thank them for always being a safe place for students to go to, doing their best to help others, putting in extra work to maintain our school safety through these tough challenges they face, and all while keeping a smile on their faces spreading kindness to those who need it. Thank you Nurse Justine and Nurse Caitlin for your continued efforts, and your constant hard work will always be appreciated at RHS. We are so glad to have you as our school nurses.
